

EDUCATION

Moduflex has extensive experience in designing and manufacturing tailored solutions for educational spaces spanning more than 20 years.

With the growth of digital resources, it's essential that educational facilities adapt to new technology to improve both the teaching and learning experience.

Committed to Excellence in
Design, Quality, and Service.

Desking

Our office desking is incredibly durable and practical, as well as stylish. We can easily integrate storage to reduce clutter in the office. We are always happy to liaise with 3rd parties to align requirements for IT equipment to make the process as smooth as possible.

Teaching & Storage Walls

Teaching Walls are becoming increasingly popular thanks to their ability to declutter classrooms and increase storage space. They are a modular system and can be comprised of tray storage, lockable cupboards, display units, whiteboard panels, integrated seating and more. The possibilities are endless with this customisable and modern IT furniture.

Library Shelving

Our comprehensive Library Shelving range is adaptable to any environment from small library corners through to large-scale universities - and there is a system suitable for every budget. Options include full Steel double skin systems, Hybrid Shelving (Assure), Cantilever Shelving (Aspect).

Lockers

Our Steel or MFC lockers can be blended seamlessly with any educational environment and integrated with other storage or display units to create a unique and functional space whilst providing security to students and staff.

Contact us on **0117 982 2882** or **info@moduflex.co.uk** to discuss your project.

Visit **www.moduflex.co.uk/education** for more information.

Systems are designed and manufactured in the UK, conforming to ISO **9001** and **45001**. We also operate an environmental management system that complies with **ISO 14001**.
