## CASE STUDY

# Zumtobel

This leading lighting company is inextricably associated with aesthetically attractive design and a clear stylistic idiom. The Light Centre is a working showroom that needs to reflect these strong brand qualities to the finest detail whilst developing a space that means clients can experience light and its effects in a completely unique way.

Simple but effective design details were applied, adding a touch of style to standard Bench 50 desking, storage units and meeting room tables. Bench 50 desking and meeting table tops were reduced to 18mm thickness to suite in with the raised storage units with black contrast edging featuring throughout. Screens were raised from the desk to create light and bespoke metal pen trays were designed to free up floor space. Modern and stylish soft seating was carefully selected to complement the entire space.

### KEY FEATURES

- Bench 50 desking with slimline contrast edged tops
- Stylish raised storage units with contrast edges to complement desking
- Under lit raised storage units
- Bespoke pen trays in keeping with minimalist theme
- Bespoke meeting table end for Bench 50 executive desk
- Vibrant soft seating solutions

*Under lit raised storage units*

*Bespoke integrated pen trays*

*White Bench 50 desk featuring black contrast edged 18mm top and raised screens*

## CUSTOMER COMMENT

*"Authentic staging makes it possible to experience light and its effects in a completely unique way. Our new Light Centre will help drive our concepts, innovations and education further by enabling us to cater to the specific requirements of our customers in a custom made space."*

Steve Shackleton, Zumtobel

*Contemporary circular soft seating*

*White storage units with black contrast edges*
